TX5S Clipperton Island –update

All the logs are now on Club Log and M0URX website. The missing 40m QSOs were found on that station's laptop and are also online. For confirmations: OQRS is open. We are making our way to San Diego and expect to meet the wet weather being predicted for there.

YJ0VV –update January 31

This is the DXpedition you have been waiting for. For this two week DXpedition we are mixing holiday and serious DXing. We have limited openings but no matter what your style, you will be welcome. We will be in Vanuatu during several contests including the CQ World-Wide SSB Contest. We will be in Vanuatu from October 16-30, 2024. Timing will allow us to take advantage of the excellent Southern Hemisphere springtime propagation on top of the best sunspot activity in years. Since Vanuatu is #74 for most wanted phone on Club Log there should be plenty of pileups. This DXpedition is open to all hams and their spouses. We have contracted with Vanuatu Luxury Holiday Homes on Efate Island for the Asana home just outside of the capital of Vanuatu, Port Vila, and have sent a deposit. It sleeps nine in five bedrooms and has four bathrooms. For eight guests it will only cost \$1,500 US per person for two weeks. Each person should have an additional budget of \$1,000 US for food, island transportation, and incidentals. Flight cost is not included which would fluctuate depending on departure city, class of flights, insurance and baggage.

In addition to operating as a DX station we will have the opportunity to operate POTA and IOTA. We have secured a QSL Manager to handle the over 40,000 expected contacts. If interested contact Van, N4VGE / YJ0VV, as soon as possible, only three more hams are needed.

Iota 60th anniversary dinner at Friedrichshafen

This year we celebrate 60 years since the founding of our wonderful programme. In recognition of this milestone, the upcoming Ham Radio 2024 meeting in Friedrichshafen (FHN), scheduled to take place between June 28 and 30, will have as moto: "60 Years of Islands on the Air: Technology Meets Adventure!" (see more at <https://www.hamradio-friedrichshafen.com>)

Apart from having a booth there, we intend to organize an IOTA Forum on Saturday morning, June 29, as well as other activities, which will be announced on this website later on. We also like to use this opportunity to call for an anniversary dinner at one of the local restaurants. Please let us know at info@iota-world.org, as soon as possible, if you are interested to participate to this special get-together event, number of seats required, and if you have a preference for a specific evening during the meeting. We will compile the results of this quick survey to book an appropriate venue. More details will be provided in due course.

708AD and 708AE –update

We have completed our second 400W solar panel installation in Yemen, and will proceed with another 10 families that will receive lights and fans. Its great to see OQRS money spent on this. If you want to support you can still paypal kenneth@opskar.no and label it "solar panels".

PJ5/SP9FIH and PJ5Z –update January 30

'I do not know why this bug still exists. I am 3rd time on St Eustatius and every time here my PJ5/SP9FIH callsign is decoded wrong. This time it is as DP1POL. Please do not call DP1POL because nobody will answer you! Felix DP1POL is not active now.

Success with rebuilding 60m antenna to work on 80m. From now for two weeks I will be on 80m mostly FT8. Also maybe phone little above 3600 kHz.'

OC-261 Flinders Isl The team that activated VK5TIL last year is going to be active again this year from Flinders Island, South Australia, between 14-21st April 2024.

6 operators (VK5GR, VK5PAS, VK5HS, VK5LA, VK5FR and VK5GA) will be running all modes from 160m-70cm, including both both terrestrial and satellite modes. We will be participating in both the IOTA programs (OC-261) and the WWFF programs, with the main station is located in VKFF-0175 and additional island portable activities also planned from the two other parks zone VKFF-1717 and VKFF-4307 while there.

The last IOTA activation from the island was by Craig VK5CE/P back in August 2013 so this has been dormant for some time now. We hope that the combination of IOTA and WWFF activity will be of interest not only domestically but globally as well. QSLs will be handled by M00XO via his OQRS service. Cards and LoTW will be available at the appropriate times. We are also looking at how we might use CLub Log during the event as well.

If you would like to find out more, you can visit our [website](#) . We will be adding further information as the project planning is completed. The team is looking forward to working everyone in April!
